Measuring and Celebrating Success LLO Conference 2014

Comments:

- ♣ Presenter lost control of conversation a few times. Great conversations happened but sometimes went off on a tangent off topic far too long.
- The workshop was thorough but could have been shorter.
- To ensure smooth transitions during a presentation from Power Point to links, I've often opened all the links prior to the workshop beginning. I learned that trick when I've been stuck leading a presentation where a link hasn't worked, so I know that feeling.

Excellent workshop. Thanks!
